Application Engineer Coverage

ADVANCED
CONTROLS &
DISTRIBUTION

C&E ADVANCED
TECHNOLOGIES

At GCG Automation & Factory Solutions, we are proud to have a team of **42** dedicated Application Engineers with over **800 years** of combined experience.

Our team offers:

- ✓ A strong regional presence across the United States, with key locations in Pennsylvania, Ohio, Indiana, Michigan, Missouri, Kansas, Wisconsin, Arizona, Tennessee, and Texas.
- ✓ A wide range of roles including Application Engineers, Technical Resource Managers, Safety Specialists, Systems Engineers, and more. Each role brings a unique set of skills and knowledge, allowing us to deliver comprehensive and effective automation solutions.
- ✓ Extensive expertise in automation technologies, including Siemens automation systems, variable speed drives, motion control, robotics, sensors, vision systems, pneumatics, and more!

Chris Adkins

Location: Miamisburg, OH

Years in Industry: 10

Area of specialty: Siemens Factory Automation, Networks, & AutoID

Kelly Anton

Location: Germantown, WI

Years in Industry: 42

Area of specialty: Siemens Factory Automation & General Automation

Jeff Atkinson

Location: Miamisburg, OH

Years in Industry: 38

Area of specialty: Pneumatics, Fluid Power Components, & Systems

Lexi Baker

Location: Chesterfield, MO

Years in Industry: 2

Area of specialty: 80/20 & General Automation

Jeff Brundage

Location: Rochester Hills, MI

Years in Industry: 8

Area of specialty: Siemens Circuit Protection & Controls, Sensors, & General Automation

Steven Cafiero

Location: Chesterfield, MO

Years in Industry: 21

Area of specialty: Siemens Automation & Controls

Dan Carney

Location: Milwaukee, WI

Years in Industry: 35

Area of specialty: Collaborative Robot Systems

Tom Carpenter

Location: Evansville, IN

Years in Industry: 37

Area of specialty: Banner Products, General Automation

Dave Cates

Location: Chesterfield, MO

Years in Industry: 26

Area of specialty: 80/20, General Automation

Dave Cooney

Location: Miamisburg, OH

Years in Industry: 25

Area of specialty: Siemens Controls & Automation

Nathan Crowe, E.I.T.

Location: Dallas, TX

Years in Industry: 5

Area of specialty: Robotics, Sensors, General Automation, & 80/20

Jeff Dillon

Location: Rochester Hills, MI

Years in Industry: 30

Area of specialty: Wire, Cable, & Assembly Solutions

Phil Dunne

Location: Miamisburg, OH

Years in Industry: 31

Area of specialty: Siemens Circuit Protection & Controls, Sensors, & General Automation

Louis Hayes

Location: Chesterfield, MO

Years in Industry: 18

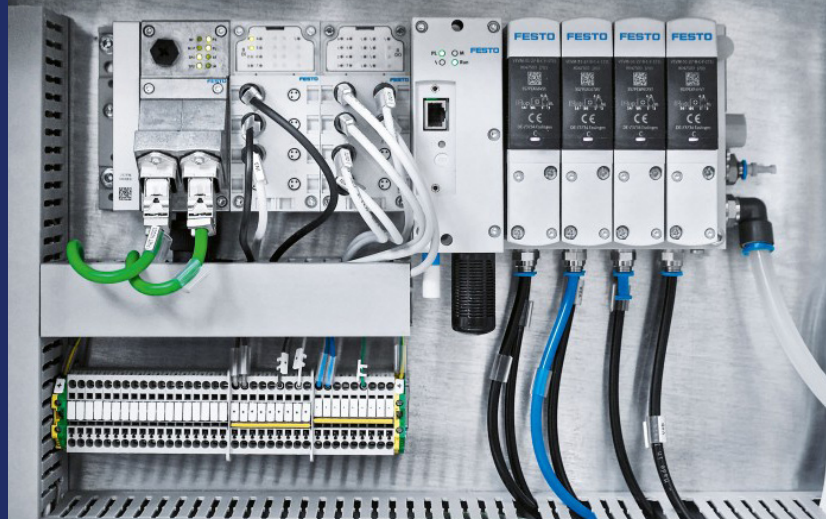

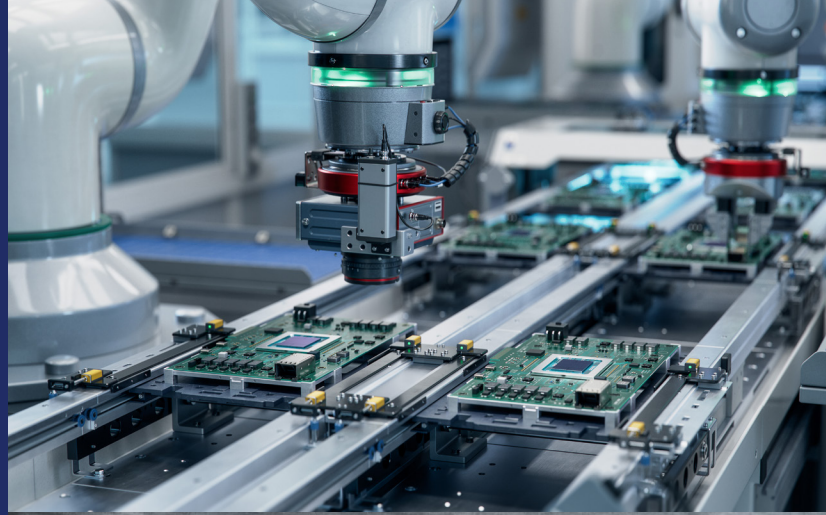

Area of specialty: 80/20, Mechanical Designs

Products & Services

- ✓ System specification and onsite installation services utilizing multiple manufacturers and components to meet customer's specific needs and requirements
- ✓ Complete robotics systems from concept, to simulation, to implementation, and training
- ✓ Training on components and systems provided to customers, allowing customers to realize the full capabilities of their equipment with increased overall equipment effectiveness (OEE)
- ✓ Safety recommendations and specifications on components, systems, and software to meet customers' needs based on their risk assessment
- ✓ Custom panels, wiring harnesses, pneumatic manifolds, and sub-assemblies allowing customers to focus on their overall equipment design, functionality, and value
- ✓ Edge computing/data collection systems, utilizing IIoT data from sensors and controls to provide predictive maintenance, real-time equipment monitoring, and equipment performance information leading to greater production throughput and less equipment

LEAD WITH INNOVATION, SUCCEED WITH AUTOMATION
