Rockwell® to Siemens TIA Portal

A hands-on workshop for Rockwell PLC programmers to experience how TIA Portal compares to RSLogix™ 5000.

Join us at this hands-on workshop, presented virtually by a Certified Rockwell / Siemens Solution Partner, for you to migrate your Rockwell PLC software knowledge to the Siemens TIA Portal programming environment.

What you will learn?

- TIA Portal vs. Studio 5000 layout, programming aspects and structured environment similarities/differences
- How to apply your current Studio 5000 programming knowledge to TIA Portal
- How to start a successful TIA Portal project – leave with this on a flash drive
- How easy the TIA Portal is to use, program and understand
- How to use advanced TIA Portal functions like integrated “no programming” diagnostics

Hands-on: Experience first-hand the tools and technology

You'll work live and online with the TIA Portal – a single engineering framework for controllers, distributed I/O, HMI, drives, motion control, and motor management to provide unparalleled performance and results.
