SIRIUS ACT Profinet

SIRIUS ACT pilot device system provides a new way to save both time and money for your industrial control panels. A system consists of one interface module and is expandable with up to 20 terminal modules via a simple ribbon cable connection. This lunch & learn will introduce you to the financial and installation benefits by using the SIRIUS ACT PN system. The attendees will learn how to assemble, test and configure a SIRIUS ACT PN system using TIA Portal software.

System overview topics:

- Hardware Components
- Onboard Diagnostics
- Module Replacement
- Cost Analysis vs Hard Wired Solution

Hands on topics:

- How to assemble a system
- How to test the system without a PLC
- Add a SIRIUS ACT PN Station
- Add a SIRIUS ACT PN Station (Using Auto Detect)
- Create PLC Logic
- Test Configuration
- Configuring in a TIA Portal Project
- Diagnosing errors using TIA Portal

Format:

- Presentation and Hands-On
- Interactive demonstrations with actual hardware

Date: August 18, 2026

Location: **St. Louis, MO**

675 Spirit Valley Central Dr
Chesterfield, MO 63005

Time: 11:00 a.m. to 1:00 p.m.
